

The mission of LPGA Pros in the Fight to Eradicate Breast Cancer (LIFE) is to help eliminate breast cancer as a life-threatening disease while focusing on reaching a younger generation of women with information about the importance of early detection and healthy breast care practices. Statistics prove that early detection is one of, if not the most significant factor affecting the survival rate for those diagnosed with breast cancer.

Your support will be directed to programs supporting this "Young Women's Initiative," as well as advanced treatment programs, and research to find a cure.

Thank you for your help.

Sincerely,

Val I would like to join the fight and am enclosing: \$1,000 ___ \$500 ___ \$250 ___ Other ___
